Chandrika S Jadhav

Portfolio | chandrikasjadhav@gmail.com | LinkedIn

SUMMARY

Computer Science Engineering student with strong problem-solving and analytical skills, experienced in developing practical solutions through software development, AI/ML, and Arduino-based projects. Skilled in C, C++, Python, and Java, with hands-on experience in hackathons, robotics, and innovative technology projects. A quick learner and collaborative team player, passionate about tackling real-world challenges, exploring emerging technologies, and continuously improving technical skills.

TECHNICAL SKILLS

Programming Languages: Python, Java, C, C++, JavaScript
Web Development: HTML, CSS, PHP, JavaScript
Databases: MySQL, DBMS, MongoDB
Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems
Developer Tools: VS Code, XAMPP, phpMyAdmin
AI & Machine Learning: Machine Learning Fundamentals, Data Analysis, Generative AI
Core Strengths: Problem-Solving, Critical Thinking, Teamwork, Adaptability, Communication

EXPERIENCE

AI/ML Project Intern — IEEE Computer Society Bangalore Chapter
April 2026 – September 2026

- Developed FlowMind, an intelligent multi-agent AI system for cognitive-aware workflow automation.
- Implemented browser behavioral monitoring using JavaScript and built machine learning and stress-scoring pipelines using Python, FastAPI, and Scikit-learn.
- Integrated Gmail and Slack APIs for AI-assisted communication triage with human approval.
- Performed data preprocessing on 273,452 behavioral records, retaining 9,048 cleaned records for analysis.

PROJECTS

InsightMail — Enterprise Email Intelligence
AI/ML, Python, NLP

- Developed an AI/ML-based prototype to classify emails and identify priority messages.
- Focused on intelligent email analysis to improve communication management and help users prioritize important information.

MindSnap — Real-Time Mood Tracker
JavaScript, Web Development, Data Visualization

- Developed a mood-tracking application that analyzes user inputs and visualizes emotional trends over time.
- Designed an interactive interface to help users track mood patterns and gain insights into their emotional well-being.

USB Sentinel — Security Utility
Python, Cybersecurity, System Monitoring

- Created a security utility to monitor USB device connections and identify potentially unauthorized access.
- Focused on strengthening device monitoring and helping reduce the risk of unauthorized data transfers.

Obstacle Avoidance Robot — Arduino Project
Arduino, C/C++, Ultrasonic Sensors, Embedded Systems

- Built an autonomous robot using Arduino and ultrasonic sensors to detect obstacles and dynamically adjust its path to avoid collisions.
- Integrated sensors, motors, and control logic to enable real-time obstacle detection and navigation.

AWARDS & CERTIFICATIONS

- IEEE Computer Society Bangalore Chapter — Internship Completion Certificate for the six-month Internship and Mentorship Program (IAMPro'26), April–September 2026.
- KLEIT Techie Show — Secured 2nd Place for the Obstacle Avoidance Robot project.
- KLEIT Techie Show — Secured 2nd Prize for the C++ Traffic Light Simulation project.
- Hackathons & Technical Events — Actively participating in hackathons, technical competitions, and innovation programs, showcasing problem-solving, teamwork, and rapid prototyping skills.

EDUCATION

B.E. in Computer Science and Engineering — *2024 – 2028*
KLE Institute of Technology, Hubballi

Pre-University (PCMC) | CGPA: 9.8 — *2022 – 2024*
Dr. R. B. Patil Mahila PU College, Hubballi

Secondary School | CGPA: 9.3 — *2021 – 2022*
S.R.B. Rotary Public School, Hubballi

LANGUAGES

English, Hindi, Kannada
